

Marmox Shower Niche

These are used to easily form a recess for toiletries within showers and other wet areas. They comprise an extruded polystyrene core coated on either side with a thin but robust layer of fibreglass reinforced polymer concrete.

Marmox Shower Niches are fixed to the wall usually on a frame so that the front lip of the Niche are flush with the Marmox Multiboard on the wall. The joints between the Niche and the Multiboard are sealed together with Marmox Waterproof Tape.

FEATURES

- Completely waterproof.
- Provides thermal insulation.
- Ready to tile.
- Lightweight and easy to work with.
- All niches are made with 12.5mm thick board and fit wall cavities 100mm or deeper.
- Comes already constructed which guarantees the conformity and the size.
